## INTRODUCTION

SciKon Human Hepatocyte Medium (Seeding and Maintenance) is suitable to culture hepatocytes. Hepatocyte Medium provides the ability to seed and support single cell phenotypes in their culture platforms. Human cells better mimic naturally occurring *in vivo* hepatic human responses.

## PRECAUTIONS

**This product is for “in vitro” research use only. It is not intended for human, veterinary, clinical, diagnostic, or household use.** Proper precautions and biological containment should be taken when handling cells of human origin, due to their potential biohazardous nature. Normal precautions used in handling laboratory reagents should be followed.
